

NOTES:

BLONDOR

Premium range of lightening products for varied blonde effects. Effective and reliable lightening with up to 7 levels of lift on colored and natural hair.

FACTS

The BLONDOR range is the perfect choice for maximum lightening. The range contains a number of products from which to choose:

BLONDOR MULTI BLONDE POWDER

- A fast and simple-to-mix powder, BLONDOR Multi Blonde Powder produces a creamier consistency for a professional application (blue).

BLONDOR SOFT BLONDE CREAM

- Contains extract of chamomile, especially gentle on the hair and scalp (white).

BLONDOR MULTI BLONDE GRANULES

- Easy-to-mix granules with coconut fragrance, ideal for all techniques (white).

MIXING RECOMMENDATIONS

- Great results on natural or colored hair for on and off-scalp lightening techniques.
- Use mixing ratios from 1:1, 1:1.5, or 1:2 depending on product used.
- For regrowth application, use WELLOXON Perfect 6%. For fashion techniques away from the scalp, use WELLOXON Perfect Pastel or WELLOXON Perfect 6%, 9%, or 12%.

TIPS FOR LIGHTENING

- Apply product to dry hair, which has not been pre-shampooed.
- Using gentle heat such as Climazon will reduce the development time.
- Product development is visual and dependent on depth of color and porosity of the hair.
- Once the lightening result is achieved, rinse out the BLONDOR with warm water and shampoo, and apply Wella Professionals Care or System Professional products.
